Merchants are responsible for managing their own affiliate programs, paying out commission earnings to their own affiliates, and providing support to their affiliates if needed. Once you have joined a merchant's program, you can select them above and then use the Contact Merchant link to send them any questions you may have about their affiliate program, products and payments.

E-junkie does not manage or operate affiliate programs. E-junkie is just an automated software service that thousands of independent merchants use to manage their own affiliate programs. E-junkie has no knowledge about the nature of any particular merchant's affiliate program or how they choose to manage it.
